SECRETARY OF THE COMMISSION

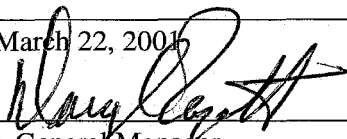

**6. DIRECTORY LISTINGS**

**6.1 Regulations**

1. The rates and regulations specified herein for directory listings apply only to the alphabetical section of the directory. Listings are intended solely for the purpose of identifying subscriber's telephone numbers and as an aid to the use of telephone service.
2. The Telephone Company will furnish to its subscribers, without charge, one directory per access line/trunk or as it deems necessary for the efficient use of the service. Other directories will be furnished at the discretion of the Company at a reasonable charge.
3. The Telephone Company shall have the right to make a charge for subsequent directories issued in replacement of directories destroyed, defaced, or mutilated while in the possession of the subscriber.
4. The listing of subscribers either without charge or at the rate specified herein for additional listings in the alphabetical section of the directory does not contemplate special prominence of arrangement. The Company bears no responsibility in any dispute that may arise as a result of the publication or non-publication of such listings in its directories.
5. Listings must conform to the Company's specifications with respect to its directories. The Company reserves the right to reject listings when in its judgment such listings would tend to delay or impede the use of the service.
6. The Company reserves the right to limit the length of any listing to one line in the directory by use of abbreviations when in its sole judgment the clearness of the listing and the identification of the subscriber is not impaired thereby.

**6. DIRECTORY LISTINGS (Cont'd)**

**6.1 Regulations (Cont'd)**

10. Whenever any question arises to the authorization of a subscriber to list the name of a business or to use a listing that includes the trade name of another business, the Company, at its discretion, may require the subscriber to provide proof of such authorization. Such proof may include, but is not limited to, written authorization from the owner of such name addressed to the Company specifically to permit the listing requested by the subscriber. The Company may refuse or delete a listing when the owner either does not provide appropriate written authorization or withdraws previous authorization in a written letter to the Company.
11. The length of contract period for directory listings is from the time the listing is appears in information records to the end of the directory period. The directory period is from the day the directory is published to the day the succeeding directory is published. When the listing appears in information records only, the period is one month.

**6.2 Primary Listings**

1. A primary listing is provided without charge as follows for each separate access line/trunk for Residence, Business, Key, PBX and one primary listing for each ISDN BRI/PRI service group, one way DID Trunk group, Distinctive Alert Service number or Remote Call Forwarding service.
2. When two or more access lines or KEY or PBX trunks are operated with rotary line service, the first number of the group is considered the primary listing. When two or more access lines/trunks are in a rotary hunt group, a primary listing may be made for each access line/trunk if requested by customer without charge.

**6. DIRECTORY LISTINGS (Cont'd)**

**6.2 Primary Listings (Continued)**

3. Additional primary listings will be indented under the main primary list for residence or business customer located at same location. Name of other person at same premise or word phrase is permitted on the indented listing.

4. Examples:

Doe John 123 Main St, Glasgow.....555-2222  
Teen Line.....555-4444

South Lumber Co 123 Main St.....555-1234  
FAX.....555-4444

**6.3 Unlisted Number Service**

1. Unlisted number service is the withholding of a customer's listing from the printed telephone directory. The number may be obtained from the directory assistance operator. Subscribers requesting such arrangements agree to hold the Company harmless from any damages that might result from the unlisted number including the failure to receive calls.
2. The Company is not liable for damages resulting from the inadvertent listing of an unlisted number in a telephone directory.
3. Unlisted number service does not preclude the Company from supplying the customer's name, address and telephone number to the 911-service administrator or name and number for Calling Number Delivery or Calling Name Delivery Service.

**6.4 Non-Published Number Service**

1. Non-published number service is the withholding of a customer's listing from both the telephone directory and directory assistance records. Subscribers requesting such arrangements agree to hold the Company harmless from any damages that might result from the non-published listing including the failure to receive calls.
2. The Company is not liable for damages resulting from the inadvertent publication of a non-published number in a telephone directory or for refusing to disclose a non-published number to any party.
3. Non-published number service does not preclude the Company from supplying the customer's name, address and telephone number to the 911-service administrator or name and number for Calling Number Delivery or Calling Name Delivery Services.
4. Non-published Number Service may be provided at no charge for Rotary Line Service- hunt numbers, Public Telephone Access Line numbers, Distinctive Alert Service numbers and DID numbers or additional residence access line numbers located at same location was one residence access line with a main primary residence listing or Non-published Number Service charge.

7 MISCELLANEOUS SERVICES (Cont'd)

7.2 Custom Calling Features

7.2.1 General

1. Call Waiting with Cancel Call Waiting

*Call Waiting* - Provides the user, busy on a call, with a private signal that alerts him to an unanswered call waiting to be completed to his number. The user may, then, hold the existing call, answer the incoming call and alternately talk on both calls until one has been terminated.

*Cancel Call Waiting (CCW)* - Allows the Customer to cancel the Call Waiting or Call Waiting Deluxe feature on an in-bound call on a per call basis. This can be done before the Customer places a call. If customer also subscribes to 3 way Calling can be done during a conversation. Furnished at no charge for all customers with Call Waiting features.

*Call Waiting Deluxe (CWD)* - This service allows a called customer to control the treatment applied to incoming calls while the customer is off-hook on a call. Call Waiting Deluxe includes the functionality of the Call Waiting feature and provides several additional call disposition options.

Call disposition options are: (a) answer the incoming call, placing the existing call on hold; (b) answer the incoming call, dropping the existing call; (c) direct the incoming call to hold via a recording, (d) forward the incoming call to another location, (e) Conference the incoming call with the existing call and, if desired, drop either party of the conference call.

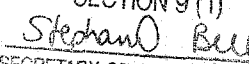

The customer must have Calling Name Enhanced feature for the calling ID data of the waiting call to be provided following the Call Waiting Deluxe alerting tone.

The customer must have Call Forwarding ~~Do Not Answer~~ feature in order to forward a waiting call to other location. PUBLIC SERVICE COMMISSION OF KENTUCKY EFFECTIVE

**7 MISCELLANEOUS SERVICES (Cont'd)**

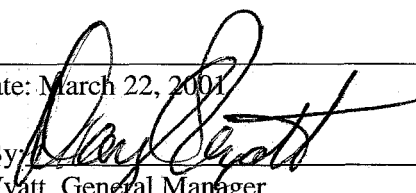

**7.2 Custom Calling Features (cont'd)**

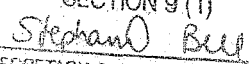

**7.2.1 General (cont'd)**

2. Call Forwarding All Calls (CFAC)  
Provides for transferring incoming calls to another telephone number by dialing a code and the telephone number of the service to which calls are to be transferred.
3. Three-Way Calling (3WC)  
Permits an existing call to be held, and by dialing a second telephone, call can be established and added to the connection. The call ends when the person with the 3WC service hangs up. Two toll points may be connected on Three-Way Calling. Normal transmission performance cannot be assured on all calls.
4. Speed-Calling (SC8 & SC30)  
Provides for the calling of a 7 or 10 digit telephone number by dialing an abbreviated code. The arrangement available has an eight (8-code) and thirty (30 code) number capacity.
5. Call Forwarding Busy (CFB)  
This CFB feature provides for calls terminating to a customer's busy number to be forwarded to another number. The customer can control via dialing codes the activation or deactivation of the service or reprogram the forward to number.

SECRETARY OF THE COMMISSION

7 MISCELLANEOUS SERVICES (Cont'd)

7.2 Custom Calling Features (cont'd)

7.2.1 General (cont'd)

6. Call Forwarding Don't Answer (CFDA)

This CFDA feature provides for calls terminating to a customer's idle number to be forwarded, after a customer-preselected number of rings, to another number. The customer can control via dialing codes the activation or deactivation of the service and the forwarded-to number and number of rings.

7. Call Forwarding Fixed (CFF)

This feature provides for all calls terminating to customer's number to be forwarded to another number. The customer can control via dialing codes the activation or deactivation of the service. The forwarded-to number is specified by the customer at time order is placed and can only be changed via a service order.

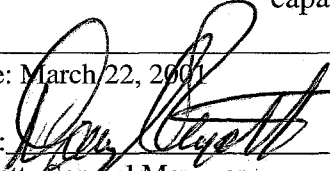

8. Call Forwarding Multipath (CFMP)

This feature provides customer who subscribe to Call Forwarding, Call Forwarding Busy, Call Forwarding Don't Answer, or Call Forwarding Fixed services the capability to specify a limited number of additional access paths that will be forwarded to another number.

Where facilities permit up to three (3) access paths will be provided at no charge with each Call Forwarding feature listed above for a total of three paths at no charge. For arrangements greater than 3 paths, additional CFM capability can be purchased, provided, however, that the total number of CFMs purchased shall not exceed the total number of lines/trunks, equipped with rotary line hunt capability pursuant to Section 7.11. To be eligible for this service, the line for which the CFM service is requested must be part of the rotary line group used to determine the total number of CFM paths permitted.

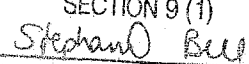

The number of CFM features is dependent upon the terminating capability of the forwarded-to number for each forwarding option.

7 MISCELLANEOUS SERVICES (Cont'd)

7.2 Custom Calling Features (cont'd)

7.2.1 General (cont'd)

9. Selective Call Forwarding Remote Activation (SCFRA)  
Capability to remotely activate the selective call forwarding feature by calling a switch assigned number other than number to which feature (SCFRA) is assigned and enter pin number assigned by the Telephone Company.
10. Call Hold Inquiry (CHI)  
This feature allows a single party customer to put any call in progress on hold by flashing the switch hook and then dialing a hold code. This frees the line to originate another call. Only one call per line may be held at a time. The held call may not be added to the other call. The original connection can be retrieved by dialing the hold code a second time. A customer who hangs up with a party on hold is automatically rung back and reconnected upon answer.
11. Six-Way Calling (6WC)  
Permits existing call(s) to be held, and by dialing additional telephone numbers allows the establishment and connection of up to 6 additional connections, including toll points. Normal transmission performance cannot be assured on all calls

7 MISCELLANEOUS SERVICES (Cont'd)

7.3 CLASS (Custom Local Area Signaling Service) Features

7.3.1 Feature Description

CLASS features are available to subscribers of Basic Exchange Line on an "a la carte" basis where service capabilities are available.

Automatic Call Back (ACB) – By dialing the AC activation code, a subscriber directs the switch to recall the DN of the last outgoing call from his set. The switch will set up the call to that DN whether or not the called party answered the original call. Therefore, without having to redial the DN, the subscriber can use AC either to contact a party he has been unable to reach or continue an interrupted discussion. If the called line is busy, the switch queues the AC request and delays processing of the call until both the called and calling parties are idle. Once both lines are idle, the switch first applies distinctive ringing to the calling line to alert the subscriber that the requested call back is ready to be set up.

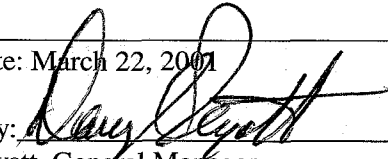

When the calling subscriber goes off-hook in response to the distinctive ring the switch processes the call and applies normal ringing to the called line. An AC request is removed from the queue when the switch successfully sets up the call (i.e., rings the called party) or when the request times out (after 30 minutes) or cancel callback code is dialed.

Automatic Recall (AR) - This feature enables a customer to automatically return the last incoming call whether it is answered or not. Upon activation of the feature, the customer receives an automated voice response message stating the number of the party who called and is given the option of returning the call. If the called line is found to be busy, a 30-minute queuing process begins.

7 MISCELLANEOUS SERVICES (Cont'd)

7.3 CLASS (Custom Local Area Signaling Service) Features (cont'd)

7.3.1 Feature Description (cont'd)

The customer is given an indication that the network will attempt to set up the call when the called line is idle. The network periodically tests the busy/idle status of both parties until both lines are found idle, the customer cancels the request, or the queuing process expires. If both lines are found to be idle, the called party is alerted with a distinctive ring signifying that the call may now be completed.

Selective Call Forwarding – Selective Call Forwarding allows the customer to transfer selected incoming calls to another telephone number. A screening list containing a Company-specified number DN's is created by the customer and placed in the network memory via an interactive dialing sequence. Subsequently, calls are forwarded only if the calling number can be obtained and is found to match a number on the screening list.

7 MISCELLANEOUS SERVICES (Cont'd)

7.3 CLASS (Custom Local Area Signaling Service) Features (Cont'd)

7.3.1 Feature Description (Cont'd)

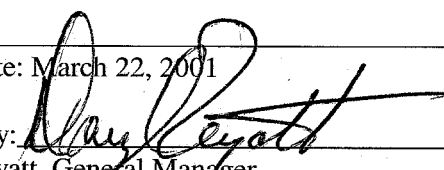

Selective Call Acceptance – Allows the customer to accept calls from a list of calling numbers. Callers not on the list (or of unknown origination) will be routed to a recording that the caller is not accepting calls and the call will be rejected. The Company will specify the number of calling numbers allowed on the list.

Selective Call Rejection (SCR) – This feature allows the subscriber to have the switch automatically reject calls from DN's on the customer's pre-designated screening list when a call is placed to the customer's number from a number on the screening list. The caller receives an announcement indicating that the party he is attempting to call does not wish to receive calls. The number of DN's will be specified by the Company.

Distinctive Ring/Call Waiting Tone (DR) – DR provides special treatment for call received from customer-specified telephone numbers. The customer creates a screening list containing a Company-specified number of DN's through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers the customer is alerted with a distinctive ringing pattern or call waiting tone for subscribers with call waiting service. Calls from telephone numbers not include on the screening list will produce a normal ringing pattern or call waiting tone.

Customer Originated Trace (COT) – Customer Originated Trace (COT) allows a subscriber to initiate a trace of a harassing or obscene call without first having to obtain legal authorization or telephone company assistance. The subscriber starts the trace by dialing the COT activation code. The switch retrieves the DN of the last incoming call. The switch immediately outputs the DN to a terminal at local Telephone Company. An announcement will be provided to the subscriber informing him of the successful trace.

7 MISCELLANEOUS SERVICES (Cont'd)

7.3 CLASS (Custom Local Area Signaling Service) Features (Cont'd)

7.3.1 Feature Description (Cont'd)

The customer using this feature is required to have contacted their servicing law enforcement agency and presented to the Telephone Company a Court Order (police order/bureau report) authorizing results of traces initiated by the customer to be released directly to the proper legal authorities for legal handling. There is a charge to the customer for each annoyance call-bureau report provided. The customer acknowledges their understanding that under no circumstances will trace results be provided directly to the customer.

Calling Name and Number Delivery (CNAM)- displays the name and number of the calling party on a special display telephone or display unit. In addition to the caller's telephone number, the first 15 digits of the calling subscriber's name will also appear.

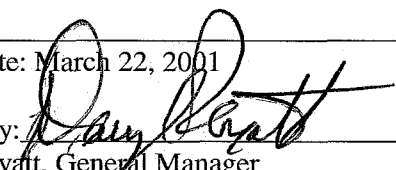

Calling Number Delivery (CND) (Caller ID) - With Calling Number Delivery (CND), the subscriber can view the DN of an incoming call before answering. After the first ring to alert the subscriber, the switch sends the ten-digit calling DN and the current month, day, hour, and minute

The CND feature requires a terminal capable of recognizing and displaying the calling DN sent from the switch.

Any customer subscribing to Calling Number Delivery will be responsible for the provision of a display device that will be located on the customer's premises. The installation, repair and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

**7 MISCELLANEOUS SERVICES (Cont'd)**

**7.3 CLASS (Custom Local Area Signaling Service) Features (Cont'd)**

**7.3.1 Feature Description (Cont'd)**

Calling Number Delivery Blocking (Per Call) - For outgoing calls, a CNDB subscriber can prevent delivery of his DN to the called party. On a per-call basis the subscriber blocks display of his DN by dialing the CNDB activation code. Upon receiving the code, the switch returns dial tone again, and the subscriber enters the DN to be called. If the call is completed (i.e., the called party's line is rung), the terminating CLASS office sends a "P" (indicating private number) to the called party's terminal in place of the calling DN.

This feature will be available without pre-subscription and at no charge.

Operator services, Customer Originated Trace (COT) and 9-1-1 service takes precedence over Calling Number Delivery Blocking - Per Call and Per Line service with all calling numbers available regardless of the privacy status.

Calling Number Delivery Blocking (Per line) - This feature enables a customer to make all calls with the delivery of their calling number marked as "private". The feature is applicable on all outgoing calls placed from the customer's line; however, if the pre-assigned activation code for Calling Number Delivery Blocking-Per-Line is dialed on the line, the calling number may be delivered.

This service is only available upon request to residential customers of non-published services and the following entities and their employees/ volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers where the head of the agency certifies to Telephone Company management a need for blocking upon health and safety concerns: (a) Nonprofit, tax exempt, private and public social welfare agencies such as domestic violence intervention agencies; (b) federal, state and local law enforcement agencies.

**7 MISCELLANEOUS SERVICES (Cont'd)**

**7.3 CLASS (Custom Local Area Signaling Service) Features (Cont'd)**

**7.3.1 Feature Description (Cont'd)**

Operator services, Customer Originated Trace (COT) and 9-1-1 service takes precedence over Calling Number Delivery Blocking - Per Call and Per Line service with all calling numbers available regardless of the privacy status.

Directory Number and Number Delivery Blocking (CNDB/CNAB) - allows Customer to prevent his/her number from appearing on the called party's Caller ID telephone or display unit. Calls from users with CNDB/CNAB activated will appear as "private" in the calling party's display unit.

CNDB/CNAB is available on either a per call or per line basis.

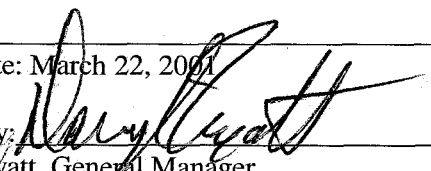

Per call blocking of CNDB/CNAB is available to all Company subscribers without presubscription. Customers with CNDB/CNAB activated on a per line basis may deactivate that blocking should per call activation be attempted.

Per Line blocking of CNDB/CNAB is available only to those customers of non-published listing services and / or the following entities and their employees / volunteers for lines over which the official business of the entity is conducted: a) Non-profit, tax exempt private and public social welfare agencies, and b) federal, state, and local law enforcement agencies.

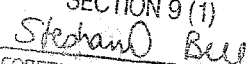

Use of CNDB/CNAB will not prevent disclosure of calling information to E911 services or the serving end office of the calling party. The called party may have the ability to activate ACR, call trace, and call screening capabilities.

Second Revised Sheet No. 24  
Replaces First Revised Sheet No. 24**

**7 MISCELLANEOUS SERVICES (Cont'd)**

**7.4 Off Premise Line (OPL)**

**7.4.1 Definitions**

1. For the purposes of definition, Off Premise Line (OPL) is any line extended off-premise by use of service wire or cable pair or equivalent, but does not interconnect or "bridge" with other cable pairs or equivalent in the central office. Should bridging be necessary, rates for bridging service are in addition to off-premise service rates.
2. Bridging is used to connect two separate cable pairs or equivalent to the same line at the central office or equivalent.
3. OPL service is intended to support secondary or after hours answering of business service and is not intended to substitute for basic service subscription.

(N)

(N)

**7.4.2 Regulations**

1. Off-premise Line or Bridging service can be furnished provided facilities are available and technical limitations in each specific case permit.
2. Separate telephone numbers or other distinctive designations are not assigned to OPL service nor is distinctive ringing permitted on any service ties to an OPL.
3. Intercommunication between the main service and OPL is not permitted.
4. The Company reserves the right to deny or to limit the number of OPLs permitted at any end user location.

**7 MISCELLANEOUS SERVICES (Cont'd)**

**7.6 Warm Line Service**

**7.6.1 General**

1. Warm Line Service provides a customer who has basic exchange line service with a time-delayed automatic dialing capability. If the customer with this service goes off-hook and initiates dialing within the time delay period, their call will proceed normally as dialed. If dialing does not commence within the time delay period (Approximately 6 seconds), a preprogrammed (7 or 10 Digits) telephone number is automatically dialed. The customer must select the preprogrammed telephone number at the time service is established and can be changed only via service order.
2. Warm Line Service may be used only in connection with individual line service.
3. Warm Line Service is furnished only from central offices that have been arranged to provide this service and is provided subject to the availability of facilities.

**7.6.2 Rates and Charges**

The rates and charges for this service are in addition to normal service and monthly charges for individual line service found elsewhere in this Tariff.

**7.7 Toll Restriction Service**

**7.7.1 Regulations**

1. The charges quoted herein are in addition to the regular monthly rates for the respective types of service as provided for elsewhere in this tariff.
2. Service order charges apply as set forth in Section 3 for each service order to add toll restriction service.
3. Service order charges for Restricted Codes – NPA 900 do not apply in the following cases:
  - a. A new subscriber when they first obtain telephone service; and
  - b. To all subscribers who dispute or question a 900 – service charge for the first time.
4. Subscribing to Restricted Codes NPA 900 does not relieve customers of responsibility for calls charged to their numbers.
5. The Company shall not be liable to any person for damages of any nature or kind arising out of, resulting from, or in connection with the provision of the Toll Denial or Restricted Codes Services including without limitations, the inability of station users to access the operations for any purpose, or any other restricted codes specified for the options.
6. Toll Blocking and Restricted Codes will be established and provided at no charge for customers receiving Lifeline Service pursuant to Section 5.4 of this Tariff.

**7 MISCELLANEOUS SERVICES (Cont'd)**

**7.9 Seasonal and Vacation Service**

**7.9.1 General**

Seasonal and Vacation Service is basic local exchange service temporarily suspended at the request of the subscriber. This service is provided to customers in all the Company's exchanges, except Public Telephone Access lines, Shared Tennant, KEY, PBX and ISDN customers.

**7.9.2 Conditions**

Seasonal and vacation service will be furnished at the Company's discretion under the following conditions:

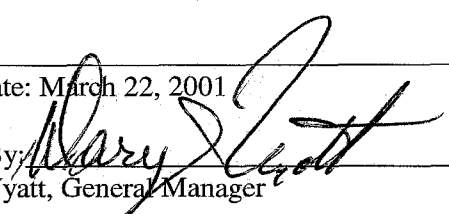

1. Service is available where the usage is of a seasonal nature.
2. During the period when the customer is billed at the reduced rate, no installation, moves, changes or maintenance will be provided by the Company.

**7.9.3 Rates**

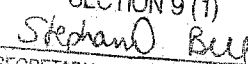

1. The monthly rate will be 50% of the total Local Exchange Service including all optional services and features billable at the point of conversion to seasonal / vacation service.
2. Service may be suspended for a minimum of thirty (30) days and a maximum of one hundred and eighty (180) days.
3. Regular service charges will apply for the suspension and subsequent reconnection of service.

**7.10 Vanity Number Service**

**7.10.1 General**

Vanity Number Service is an optional feature by which a new or existing Customer may request a specific or unique telephone number and fax number for use with the Company provided Exchange Access Services. This service provides for the assignment of a Customer requested telephone number other than the next available number from the assignment control list.

A Vanity Number Service charge shall apply after the customer rejects two randomly generated number assignments for Basic Exchange Access Service and is provided with a subsequent acceptable number.

(N)

(N)

**7.10.2 Regulations**

1. Vanity Number Service is furnished subject to the availability of facilities and the requirements of Exchange Access Service as defined by the Company.
2. The Company reserves all rights to the Vanity Numbers assigned to Customers and may, therefore, change them if required.
3. Service Charges, as specified in Section 3 also apply.
4. All other regulations described in this tariff also apply.

**7 MISCELLANEOUS SERVICES (Cont'd)**

**7.11 Rotary Line Service**

**7.11.1 General**

Any individual lines/trunks arranged for rotary, level hunting or similar service which allows an incoming call to a line/trunk that is called to be completed over another line/trunk by means of central office equipment will be classed as rotary lines. DID trunks to PBX or other switching systems are not classed as rotary lines. Rotary main service is restricted to a single premise.

**7.11.2 Rate**

per Rotary Line/Trunk

Monthly Rate

**\$0.75**

**7.12 Call Screening and Restriction Services**

**7.12.1 General**

**1. Customized Code Restriction (CCR)**

Customized Code Restriction is a service that enables customers to restrict certain types of outgoing/incoming calls from being placed over their exchange lines/trunks. This capability is provided only by means of recorded announcement restriction. It is offered with options containing various sets of codes to be restricted, and is available to basic exchange customers with individual line residence or business service or KEY/PBX trunks.

**2. Toll Restriction Control with Pin (TRC)**

Prevents the completion of outgoing toll calls except those completed using an access plus a four to seven digit Personal Identification Number (PIN) code. Only one PIN will be assigned per line.

**7.12 Call Screening and Restriction Services (cont'd)**

**7.12.2 Regulations**

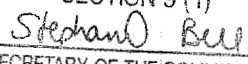

1. Customers may subscribe to whichever option meets their needs, but only one option may be provided on a line/trunk or group of lines/trunks.
2. CCR is furnished only from central offices where facilities permit.
3. CCR does not provide restriction of calls to public emergency service numbers (911).
4. Subscribing to CCR does not relieve customers of responsibility for calls charged to their numbers.
5. Change in PIN numbers requires the completion of a Service order. Service Order Charges may apply.
6. It is the responsibility of the customer to notify all station users of their service that an operator cannot be reached.
7. The company shall not be liable to any person for damages of any nature or kind arising out of, or resulting from, or in connection with the provision of this service, including without limitation, the inability of station users to access the operator for any purpose, or any other restricted codes specified.

Replaces Original Sheet No. 36**

**7 MISCELLANEOUS SERVICES (Cont'd)**

**7.13 Do Not Disturb Services**

**7.13.1 General**

1. **Do Not Disturb (DND)**  
This feature allows calls to the customer's main directory number to be routed to a special "Do Not Disturb" (DND) announcement. This feature may be activated and deactivated by the customer.
2. **Do Not Disturb with Override**  
This option allows a calling party to input a prearranged Personal Identification Number (PIN) while listening to the DND announcement from a touchtone phone. If the PIN is correctly input, the calling party's call will override the DND function and ring the line. The subscribing customer controls activation/deactivation and programming of the PIN code.
3. **Enhanced Do Not Disturb Telemarketing (EDNDT)**  
This service allows feature subscribers the ability to screen calls generally associated with telemarketing services. The EDNDT feature, when activated, intercepts those call for which calling number delivery is either blocked or unavailable with an "EDNDT announcement." The EDNDT announcement states: *"You have called a number which does not accept calls from telemarketers. All other callers may press '1' if they wish to complete the call."* All callers who press "1" will be allowed to complete the call and there is no guarantee that unwanted calls, including those from telemarketers, will be not be completed at the caller's discretion. The subscribing customer controls activation and deactivation of the feature.

**7 MISCELLANEOUS SERVICES (Cont'd)**

**7.14 Home Intercom Alert Service (HIAS)**

**7.14.1 General**

**1. Home Intercom Alert**

This feature allows a subscriber to go off-hook, dial one of up to three (3) home intercom access codes and after going back on-hook, ring all phone extensions with a distinctive ringing pattern. The ringing pattern corresponds to the access code dialed. One (or more) additional extensions can go off-hook and establish a communication.

**2. Home Intercom Alert with Transfer Service**

This feature allows a HIAS customer to hold/transfer an active call to another extension within the customer premises that is served by the same line. The customer performs a hook-flash and uses the HIAS feature to ring all phone extensions with any of 3 distinctive ringing patterns. Through hook-flash activation, the customer can then reconnect and transfer the holding active call with the extension.

**7.14.2 Provision of Service**

1. Designation of ring pattern to telephone instruments within the customer premises is at the customer's discretion.
2. Service may not work with all customer premise equipment.
3. Compatibility with other features not guaranteed.
4. Company does warrant transmission levels for calls using this service.

SECTION 9 (1)  
BY:   
SECRETARY OF THE COMMISSION

**7 MISCELLANEOUS SERVICES (Cont'd)**

**7.16 Remote Call Forwarding (RCF)**

**7.16.1 General**

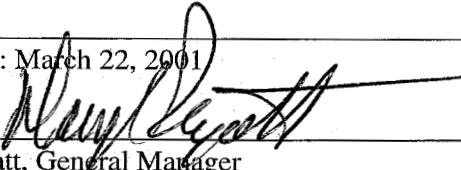

Remote Call Forwarding (RCF) automatically redirects an incoming call to a Customer's number to a pre-designated terminating number. Forwarding is always activated and not controlled by customer. No access line is associated with the dialed number from which the forwarding occurs. Customer specifies the forwarded-to number at the time the order for service is placed and a service order is required to change it.

**7.16.2 Provision of Service**

1. The RCF service is offered subject to the availability of suitable facilities.
2. Remote Call Forwarding (RCF) is provided on the condition that the customer subscribe to sufficient features and facilities to adequately handle the calls to the terminating number without interfering with or impairing any services offered by the Company. If, in the opinion of the Company, additional RCF features or facilities are required to support the forwarding of calls, the customer will, where appropriate, be required to subscribe to such features/facilities. If the customer refuses to do so and/or until adequate facilities are added, said customer's RCF service shall be subject to termination.
3. Where calls are forwarded to phone service other than that of the RCF customer, it shall be responsibility of the RCF customer to obtain permission of that customer and to determine a mutually acceptable number of access paths with that customer and the company.

**7 MISCELLANEOUS SERVICES (Cont'd)**

**7.19 Number Retention Services**

**7.19.1 General**

Number retention services allow subscribers to the service to retain for a limited period reservation of a telephone number assigned to the Telephone Company but not active in the Telephone Company switch.

**1. Extended Intercept**

Extended Intercept service allows a subscriber to request that a transfer of calls recording remain active on a number previously in service for a period longer than that normally provided without charge by the telephone company.

**2. Number Reservation**

Number reservation allows the subscriber to reserve for a customer-specified predetermined period of time telephone number(s) anticipated to be activated by the subscriber at a future date.

**7.19.2 Provision of Service**

1. All service charges are billed in advance.
2. The Company reserves the right to reclaim a retained number upon written notice to the customer in order to manage its numbering resources or to comply with state or federal directives on such management.
3. Number Retention Subscribers who re-activate service prior to the termination of the reservation period will receive a prorated credit for retention service pre-paid beyond the service activation date.

**8 CONNECTIONS WITH CERTAIN FACILITIES AND / OR EQUIPMENT OF  
OTHERS**

**8.1 Regulations**

1. Customer-provided terminal equipment or wiring may be used with the facilities furnished by the Company for telecommunications services as provided in this tariff. In all such cases the customer-provided equipment or wiring will be constructed, maintained and operated to work satisfactorily with the facilities of the Company, and to meet all published standards of the Federal Communications Commission (FCC).
2. Subscribers may not disconnect or remove or permit others to disconnect or remove any apparatus, equipment or wiring of the Company except upon the consent of the Company.
3. Where telecommunications service is available under this Tariff for use in connection with customer-provided equipment and wiring, the operating characteristics of such equipment or wiring shall not interfere with any of the service offered by the Company. Such use is subject to the further provision that the customer-provided equipment or wiring does not endanger the safety of the Company's employees or the public; damage, require change in or alteration of, the equipment or other facilities of the Company; interfere with the proper functioning of such equipment or facilities; impair the operation of the Company's service. Upon notice from the Company that the customer-provided equipment or wiring is causing or is likely to cause such hazard to interference, the customer shall make such change as shall be necessary to remove or prevent such hazard or interference. The customer shall be responsible for the payment of Company charge in Section 3, "Maintenance of Service Charge," for visits by the Company to the customer's premises where a service difficulty or trouble report results from customer-provided equipment or wiring.

**8.1 Regulations (Cont'd)**

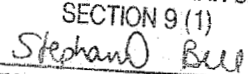

4. The Company shall not be responsible for the installation, operation or maintenance of any customer-provided communications systems. Telecommunications service is not represented as adapted to the use of customer-provided equipment or systems. When such equipment or facilities are connected to the Company facilities, the Customer is responsible for telecommunications service and the maintenance and operation of customer provided facilities in a manner proper for telecommunications service. Subject to this responsibility, the Company shall not be responsible for (1) the through transmission of signals generated by the customer-provided equipment or systems or for the quality of, or defects in, such transmission, or (2) the reception of signals by customer-provided equipment or system.
5. The Company shall not be responsible to the customer if changes in the criteria outlined herein or in any of the facilities or procedures of the Company render any customer-provided equipment or communications systems inoperable or otherwise affect its use or performance.
6. The Company will not be responsible for any loss or damage, nor for any impairment or failure of the service, arising from or connection with the use of facilities of customers and not caused solely by the negligence of the Company.
7. Where any customer-provided equipment or system is used with telecommunications service in violation of any of the provisions in this tariff, the Company will take immediate action as necessary for the protection of its services, and will promptly notify the customer of the violation. Following the receipt of written notice from the Company, the customer shall either discontinue use of the equipment or system or correct the violation. Confirmation of corrective action must be provided in writing to the Company within 10 days. Failure of the customer to take corrective action and provide written confirmation to the Company within the time stated above may result in termination of the customer's service.

8. Customer-provided systems that provide service to a location deemed by the Company to be impracticable to serve because of hazard(s) or inaccessibility may be connected with the telecommunications service by means of connecting equipment furnished by the Company.
9. The customer indemnifies and saves the Company harmless against claims for infringements of patents rising from combining such equipment or system with, or using it in connection with, facilities of the Company; and against all other claims arising out of any act or omissions of the customer in connection with facilities provided by the Company.
10. No equipment, apparatus, circuit or device not furnished by the Company shall be attached to or connected with the facilities furnished by the Company, except as provided in this Tariff. In case unauthorized attachments or connections are made, the Company shall have the right to remove or disconnect the same; or to suspend the service during the continuance of said attachments or connection; or to terminate service.

**8.2 Network Protection Criteria**

To protect the telecommunications network and the services furnished to the general public by the Company from harmful effects, the signal from the customer-provided communications system to the long distance message telecommunications network must comply with the following minimum network protection criteria:

**8.2.1 Customer Premises Requirements**

Where the customer-provided communications system is connected, the customer-provided communications systems must comply with the following criteria:

1. To prevent excessive noise and crosstalk in the network, the power of the signal at the central office must not exceed 12 db below one milliwatt when averaged over any three-second interval. To permit each customer, independent of distance from the central office, to supply signal power that approximates the 12 db below one milliwatt limit at the central office, the power of the signal which may be applied by the customer-provided equipment located on the customer's location, but in no case shall it exceed one milliwatt.
2. To protect other services the signal that is applied by the customer-provided equipment located on the customer's premises must meet the following limits:
  - a. The power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18 db below the power of the signal as specified in 8.2.1 (1).
  - b. The power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16 db below one milliwatt.

8.3 Customer-Provided Communications Systems

Customer-provided systems may be connected, at a service point of the customer, on a voice grade basis with telecommunications service furnished by the Company, through customer-provided equipment which affects such connections externally to the Company by means of physical connection for transmitting and/or receiving. The customer-provided system shall comply with the minimum network protection criteria contained in Section 8.2

8.4 Entrance Facilities

All connections of entrance facilities to customer-provided communications systems shall be made through connecting arrangements approved by the Company. Customer, by use of its own equipment, but only within the normal transmission characteristics of the grade of channel ordered, may not create additional channels from the channels provided for entrance facilities. The charges for entrance facilities and the connecting arrangements will be based on cost as specified in the Tariffs of the Company.

8.5 Connection of Customer-Provided Communications Systems with Instruments  
Furnished by the Company

The Company does not provide instruments solely for use on customer-provided communications systems.

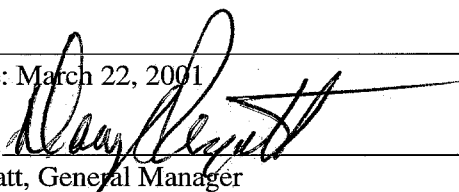

8.6 Maintenance Service Charge

The customer shall be responsible for the payment of the charges indicated in Section 3 "Maintenance of Service Charge," for visits by the Company to the customer's premises where a service difficulty or trouble report results from customer-provided equipment or facilities.

SECTION 12  
First Revised Sheet No. 2  
Replaces Original Sheet No. 2**

**12. ISDN PRI / BRI**

**12.1 Description of Service**

PRI (23B+1D) or (24B+0D)

(T)

ISDN PRI service provides a method of access to the telephone network called Primary Rate Interface (PRI). Primary Rate Interface is an ISDN based, DS1 access link to the telecommunications network and provides integration of multiple voice and data transmission channels on the same line. The basic channel structure for PRI is twenty-three (23) 64 Kbps bearer channels (B channels) and one (1) 64 Kbps data channel (D channel). In situations where more than 23 B channels are needed for a particular customer additional 24B +0D arrangements can be used up to a maximum of four arrangements. The D channel of the first PRI arrangement is used to transport signaling for up to four additional PRI 24B+0D arrangements for a maximum of 119 B Channels. Optional you can add one additional D channel to be assigned as an automatic backup to the primary D channel to provide redundancy of the signaling on the two D channels of a multiple PRI arrangement. These B channels may be used to connect the Customer's premise equipment to the Public Circuit Switched Network (e.g. outward, inward and two-way trunks, for access lines and/or DID trunks).

ISDN PRI service is a service for the transmission of digital signals only. Clear Channel Capability and Extended Superframe Format are inherent to the service. The user is responsible for providing Customer Premise Equipment (CPE) that is compatible with the ISDN PRI service interface. The Company shall not be responsible if changes in any of the equipment, operations or procedures of the Company utilized in the provision of ISDN PRI service render any facilities provided by the Customer obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance. Digital transmission rates at speeds less than those indicated may be accomplished as a function of the particular CPE furnished by the user. Suspension of service is not allowed. Individual Case Basis pricing will be available for on-network Customers or for Customer agreeing to term plans. Busy line verification and Emergency Interrupt service is not available for ISDN PRI service.

**PSC KY TARIFF NO. 3  
SECTION 12  
Original Sheet No. 3**

**12. ISDN PRI / BRI**

**12.1 Description of Service (cont'd)**

**BRI (2B+1D)**

Basic rate Interface (BRI) consists of one or two 64 Kbps (B) channels and one 16 Kbps (D) channel at the service delivery point.

B-channel circuit switched services offer up to 64 Kbps intra-office transmissions of voice or data. This option permits the user to utilize either circuit voice or data transmission paths on a per call selection basis. Transmission on the B-channel will be circuit switched at 64 Kbps within the switch and/or equipped facilities between ISDN compatible central offices. ISDN interconnection to non-ISDN equipped central offices will be potentially subjected to analog transmission or sub-rated to 56Kbps.

SECTION 12  
First Revised Sheet No. 4  
Replaces Original Sheet No. 4**

**12. ISDN PRI / BRI (Cont'd)**

**12.2 Regulations**

1. ISDN BRI service include up to two phone numbers and a single directory number (DN) listing. Additional numbers and DN listings are available pursuant to terms of this tariff. (T)
2. ISDN transmission cannot be completed to central offices that are connected by trunks that are not compatible to transmitting ISDN services.
3. ISDN transmission cannot be completed to central offices that are not equipped to provide ISDN services.
4. The Company will provide ISDN services to the Network Interface Device (NID) normally located outside the customer premises. It is the customer's responsibility to provide inside wire and compatible customer premise equipment (CPE) and power for CPE. (T)
5. ISDN BRI will be provided where local 2-wire copper loops do not exceed 14,000 feet in length or a maximum total loss of 34db as measured at the customer's premises. Where these loop conditions cannot be met, the customer must subscribe to ISDN Individual Line Loop Extension. Individual Line Loop Extension is restricted to one per line and to the copper loop beyond 14,000 feet but within 34,000 feet. Availability of Line Loop Extension service is subject to network limitations and may not be available to all subscribers.
6. Outside loop modifications to accommodate ISDN services (removal of load coils, loop extension installation, etc.) may require longer installation time than for other services.
7. Other services (Custom calling features, CLASS, etc.) can be ordered with ISDN pursuant to other sections of this tariff except Optional Calling Plans unless an operational conflict exists. In the event that such a conflict exists, the Company will notify the customer accordingly.

**12. ISDN PRI / BRI (Cont'd)**

**12.3 Service Components**

ISDN service components include the following:

Basic Rate Interface (BRI) – Provides two B-channels and one D-channel (“2B+D”).

Individual Line Loop Extension (BRI) – Extends the ISDN BRI beyond the normal 14K’ to 36K’.

Primary Rate Interface (PRI) – Provides twenty-three B-channels and one D-channel (“23B+1D”) or provides twenty-four B-channels and zero D-channel (“24B+0D”) within the same customer’s service group.

Interoffice Channel Mileage Termination (PRI)- Where applicable provides a terminations at each end of DS-1 type (1.544 Mbps) facilities between serving ISDN-PRI office/wire center and the customer serving wire center for each ISDN Primary Rate Interface (PRI). Rate is for both ends.

Interoffice Channel Mileage Facility (PRI)- Where applicable provides DS-1 type facilities per mile between serving ISDN-PRI office/wire center and the customer service wire center for each ISDN Primary Rate Interface (PRI). Rate is per airline mile rounded up to a whole number.

D Channel Backup (PRI)- Furnishes backup of the D (data) Channel for a customer with more than one to maximum of five ISDN Primary Rate Interface (PRI) in the same service group.

**13. PUBLIC TELEPHONE SERVICE**

The Company provides Public Telephone Access Line Service for the provision of Public Telephone Service to Payphone Services Providers ("PSPs") including the non-regulated operations of the Company.

**13.1 General**

1. Public Telephone Access Line Service is provided for use with PSP provided coin or non-coin operated Public Telephones.
2. Third number and collect calls to Public Telephone Access Line Service for PSP Public Telephones are not allowed.
3. The operator cannot perform coin-collecting functions.
4. The multi-line business subscriber line charge, found in the interstate access tariff, is applicable to all Public Telephone access lines.
5. Public Telephone Access Line Service is provided on a flat-rate basis with touchtone feature.
6. PSP Public Telephones must be connected to the Company network in compliance with Part 68 of FCC Rules and Regulations.
7. Public Telephone Service is provided subject to the condition that all applicable regulations in this Tariff will be adhered to.
8. Public Telephone Service is provided for use by the subscriber but may be used by others when so authorized by the subscriber, provided that all such usage is subject to the provisions of this Tariff.
9. Public Telephone Service is not subject to concessions.
10. Public Telephone Service may not be suspended at a reduced rate.

SECTION 9 (1)  
BY:   
SECRETARY OF THE COMMISSION

13. PUBLIC TELEPHONE SERVICE (Cont'd)

13.2 Service Options

At the request of the subscriber, certain options may be added to the access line for Public Telephone Service and will be billed at the approved tariff rate. All options must be compatible with the hardware and software in use by the existing Telephone Company switching equipment.

13.2.1 Coin Supervision Additive Service

The Company will provide Coin Supervision Additive Service to PSPs who order Access Line Service for the provision of Public Telephone Service and where the Public Telephone equipment connected to the Access Line Service requires central office coin supervision capability.

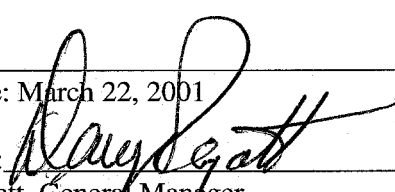

Coin Supervision Additive Service provides the capability of central office line equipment to pass signals and/or tones from the Access line Service to a trunk terminating at the PSPs operator service provider. These signals enable an operator service provider to recognize coins from the Public Telephone user. Coin Supervision Additive Service may also permit a suitable equipped operator service provider to automatically ring back the originating access line upon completion of a call.

This option requires a special central office line card that differs from the standard access line card and will be provided only where facilities exist.

13.2.2 Public Telephone Screening/Blocking

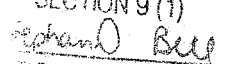

Screening/Blocking for Public Telephone access lines includes Company provided services necessary to coordinate with operator connections or block subscribers from making specific types of calls. This service includes software translations done at the Company's facilities and also includes coordination between the Company and connecting Company databases.

SECRETARY OF THE COMMISSION

16. FOREIGN EXCHANGE (FX) SERVICES

16.1 Concurrence

The Company, except as specifically stated herein assents to, adopts, and concurs in the rates, rules, and regulations governing intrastate Foreign Exchange (FX) Service as filed by Duo County Telephone Cooperative Corp., Inc. in its PSC KY Tariff No. 2A. The Company concurs in this tariff as it now exists, or as may be revised, added to, or supplemented by superceding sheets or issues, for Foreign Exchange (FX) Service furnished by the issuing utility and hereby makes itself a party thereof.

16.2 Exceptions for Cross-Boundary FX Service

1. General

Although the Company will no longer provide or permit Foreign Exchange Service by extension of local exchange facilities "cross-boundary", the Company recognizes that it has a responsibility to continue serving existing Cross-Boundary Foreign Exchange customers served in this manner. Since rates and charges for FX assumes a proper serving method, those "grand fathered" Foreign Exchange customers will be charged Foreign Exchange mileage from their premise to the point of connection with the serving company. Customers who presently have Cross-Boundary FX Service under these arrangements are "grand fathered" only at their existing premise. The Company will deny reestablishing this form of Foreign Exchange Service if the customer discontinues service or relocates to other premise.

2. Rates

All Foreign Exchange rates and mileage charges are "grand fathered" between the territory boundary meet point of the two companies' exchanges and the customer premise.

SECTION 9 (1)

BY:   
SECRETARY OF THE COMMISSION

**17. CATV POLE ATTACHMENTS**

**17.1 General**

1. This section contains regulations and charges applicable to the provision of attachment space for cable television facilities on poles of the Company.
2. The terms and conditions contained herein apply where the CATV operator, as a customer of the Company, proposes to install coaxial or other types of television distribution cables, amplifiers and drop wires, wires, and appliances together with associated cable messengers, anchors and other appurtenances (hereinafter sometimes collectively called the "equipment") and desires to attach such equipment to poles of the Company.

**17.2 Definitions**

1. Poles – All references to "poles" of the Company shall mean poles which are either solely owned by the Company, are jointly owned by the Company and another or are owned by another who has granted the Company exclusive use and control of space upon its poles.
2. Pole Attachment – This term means any attachment by a CATV firm to a pole owned or controlled by the Company.
3. Equipment – The "equipment" referred to herein consist of coaxial or other types of television cables, amplifiers and drop wires, wires and appliances together with associated cable messengers, anchors, and other appurtenances used in the provision of CATV service.
4. Joint User – All references herein to "joint user" shall mean a utility company or municipality which, together with the Company, jointly provides poles for common use in the provision of service of the respective entities, and shall also include a utility company or municipality which, together with the Company, owns a percentage of a pole, or which owns a pole upon which the Company has obtained exclusive use and control of specified space.

**PSC KY TARIFF NO. 3  
SECTION 17  
Original Sheet No. 3**

**17. CATV POLE ATTACHMENTS (Cont'd)**

**17.2 Definitions (Cont'd)**

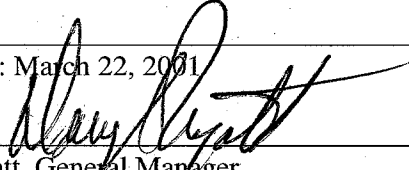

5. Cable Television Company or Operator (CATV) – All references herein to “CATV Company and/or Operator” shall mean a company that provides CATV service.
6. CATV Service – All references herein to “CATV service” shall mean the transmission, by means of coaxial or other types of distribution cables, of television audio and video signals from a central point within an exchange of the Company to subscribers of a CATV company within such exchange.

**17.3 Scope**

1. Subject to the terms and conditions contained in this tariff, the Company will provide CATV pole attachments and permit a CATV operator, for the purpose of furnishing CATV service, to install its equipment upon the Company's poles.
2. The CATV company shall secure from the proper franchising authority, a franchise to erect and maintain its equipment within public streets, highways and other thoroughfare, provided such franchising authority exists and shall secure any and all consents, permits, licenses, easements or rights-of-way that may be legally required for its operation hereunder. The CATV company shall additionally provide to the Company a map depicting the franchised area in which pole attachments may be applied for by the CATV company.
3. The CATV company shall assist in, and bear the expense of securing any additional consents, permits, or licenses that may be required by the Company because of CATV pole attachments.
4. The franchises, consents, permits, licenses, easements and rights-of-way of the Company are for its own facilities and the provision of its other services. No rights in such franchises, consents, permits, licenses, easements or rights-of-way are conferred upon any CATV company hereunder.

17. CATV POLE ATTACHMENTS (Cont'd)

17.4 Application for Permission to Install

1. At least forty-five days prior to the time the CATV company desires to attach its equipment to any of the Company's poles, the CATV operator shall make written application on the form prescribed to the Company. The Company shall in turn notify the CATV company in writing of its permission to allow the installation.
2. Where the application for attachment involves joint use poles, the CATV operator shall so indicate in its application, and provide a copy thereof to the joint user. Permission to attach to joint-use poles shall be subject to CATV Company obtaining approval from joint user.
3. Upon notification by the Company of its permission for pole space to be used by the CATV company, the CATV company shall have the right, subject to the specifications contained herein, to install, maintain and use its equipment described in its application, upon the poles identified in its application. The CATV company shall complete each installation within such time limit as may be specified by the Company; provided, however, that before commencing any such work sufficiently in advance so that the Company may arrange to have any necessary representative present when such work is performed. In the event the presence of a Company representative is required, the CATV company shall reimburse the Company for the cost and expense of such.

17. CATV POLE ATTACHMENTS (Cont'd)

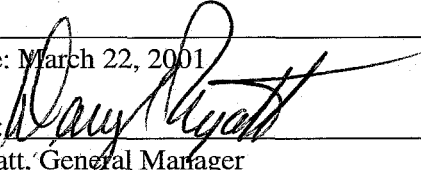

17.4 Application for Permission to Install (Cont'd)

4. Where costs are involved in the rearrangement of the Company's facilities to accommodate the CATV company's equipment, the Company shall notify the CATV company, in writing, of the changes and rearrangements required and the cost for performing such. Approval of the application by the Company is subject to receiving authorization from the CATV company to make changes and rearrangements detailed by the Company, at the CATV company's sole risk and expense. The CATV operation shall not be billed for costs incurred due to the negligence by the Company.
5. The CATV company shall not have the right to place, nor shall it place, any additional equipment upon any pole without first making application and receiving the Company's permission to do so, as provided for in this tariff; nor shall the CATV company change the position of any equipment attached to any such pole without the Company's prior written approval. The provisions of this paragraph shall not restrict the attachment of television drops to television cross arms or television cable messenger. Unauthorized pole attachments shall be subject to penalty and/or special "make-ready" changes set forth in this tariff.

17.5 Attachment Specifications

The CATV company, at its own cost and expense, shall construct, maintain and replace its attachments on the Company's poles in accordance with (1) such requirements and specifications as the Company shall prescribe and have on file with the Commission, (2) EEI Publication M12 entitled "Specifications for the Construction and Maintenance of Jointly-used Wood Pole Lines Carrying supply and Communication Circuits", (3) the requirements and specifications of the National Electrical Safety Code, 1981 Edition, and any amendments or revisions of said specifications or code, and (4) in compliance with any rules or orders now in effect or that hereafter may be issued by the Public Service Commission of Kentucky or other authority having jurisdiction. The CATV company shall comply, at its sole risk and expense, with changes and revisions in the above specifications and requirements.

17. CATV POLE ATTACHMENTS (Cont'd)

17.6 Installation and Maintenance of CATV Equipment

1. The exact location of the CATV company's attachments on poles shall be determined by the Company in its sole discretion after a joint survey to be made, at such times as shall be mutually agreed upon, by representatives of the telephone company and the CATV company. The Company may make periodic inspections as conditions may warrant. Such inspections shall not operate to relieve the CATV company of any responsibility, obligation, or liability assumed under this tariff. When sub-standard installations are found which the CATV operator creates, the Company shall give notice of such to the CATV company, and the CATV company shall remedy such conditions within two (2) working days as directed by the Company. In the event the CATV company fails to remedy the condition within the time prescribed, the Company may act to remedy it with the cost of such to be paid by the CATV company.
2. If the CATV company is unable or unwilling to perform the work, the Company, at its option and at the sole risk and expenses of the CATV company, may make the attachment or replacement of the CATV's equipment to Company poles. In such cases, the CATV company will furnish all such materials and equipment, and will reimburse the Company for the entire installation costs incurred. The CATV company shall deposit with the Company prior to such installation, sufficient sums estimated by the Company to be adequate to reimburse it for such work. The Company may not disclaim liability for loss or damage resulting from its own negligence.
3. If the CATV company grants permission for the Company to perform installation, rearrangement or removal of CATV equipment such work shall be performed by the Company at the sole expense of the CATV company. Such work shall be performed in accordance with the Company's established practices, and the CATV operator will furnish all materials and equipment to be installed and pay, in advance, the Company's estimated cost of such work.

17. CATV POLE ATTACHMENTS (Cont'd)

17.6 Installation and Maintenance of CATV Equipment (Cont'd)

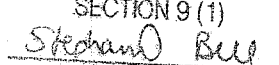

4. Where the CATV company's equipment can be accommodated on Company poles by rearranging or changing the Company's facilities, the CATV company shall pay the Company in advance the cost of making such rearrangements or changes. Strengthening of poles (guying) required to accommodate the attachments of the CATV company and the bonding of the CATV's strand to that of the Company shall be performed by the CATV company at its sole risk and expense. The Company may perform such work when the CATV company is unable or unwilling to perform the work, and the CATV company shall pay the Company in advance the cost of all such work.
5. After initial attachment, when the company subsequently requires a change in its poles, attachments thereto for reasons unrelated to CATV operations, the CATV company shall be given fifteen (15) days notice of the changes required and sufficient time to accomplish the CATV related change. If the CATV operator is unable or unwilling to meet the Company's time schedule for changes in attachments, the Company may do the work and charge the CATV company its reasonable costs for performing the change of CATV equipment. In cases of emergency, the Company may, at the CATV company's sole risk and expense, arrange to relocate or replace the facilities attached to Company poles by the CATV operator, transfer them to substituted poles or perform any other work in connection with said facilities that may be required in the maintenance, replacement, removal, or relocation of said poles the facilities thereon or the equipment which may be placed thereon. The Company may not disclaim liability for loss or damage resulting from its own negligence.
6. All required maintenance of CATV equipment shall be performed by the CATV operator.
7. All tree trimming required on account of CATV company equipment shall be done by the CATV operator at its sole risk and expense and in a manner satisfactory to the Company and land owner.

17.6 Installation and Maintenance of CATV Equipment (Cont'd)

8. The CATV company shall, at its sole risk and expense, maintain all of its equipment on Company poles in safe condition and in thorough repair.
9. Nothing herein contained shall give to the CATV company the right to replace a cross arm on any Company pole. If a cross arm is required to accommodate the facilities of the CATV company, the CATV company shall state their reasons in its application for attachment.
10. The CATV company shall not at any time make any additions to or changes in, the location of its attachments on poles without the prior written consent of the Company, except in cases of emergency when oral permission has been obtained from the Company and subsequently confirmed in writing.
11. If the CATV company should require the location of its equipment upon any public thoroughfare or other public or private property in the conduct of its business and the Company does not have pole facilities so located to fulfill CATV requirements and has no immediate need for such for the Company's own use, the Company will notify the CATV operator whether the Company is willing to place such pole facilities. Special rental charges specified herein shall not apply. The special rental charges shall be based upon the total use of the pole facilities by the CATV company. In the event such pole facilities are subsequently used by the Company for the provision of its other services, the special rental charges shall no longer apply, and the rental charges specified in this tariff shall apply.
12. Whenever, pursuant to this tariff, the CATV company shall be required to remove its equipment from any pole, such removal shall be made within thirty (30) days following the written notice given by the Company to the CATV, except as otherwise specifically provided. Upon failure of the CATV company to remove such equipment within (30) days or as otherwise required, the Company may remove them and charge the CATV company all costs associated with such removal.

17.7 Cost of Pole Replacements

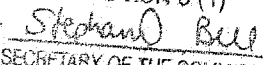

1. Whenever the CATV company applies for permission to attach to a pole that is considered by the telephone company to be insufficient in height or strength for accommodation of CATV attachments, the Company shall notify the CATV operator of such fact and of the estimated cost to the CATV company of replacing such pole with a pole which will accommodate the attachments of the CATV company and the telephone company. Within thirty (30) days of such notification, the CATV company shall either notify the Company (1) of its approval of such replacement or (2) of its cancellation of the application with respect to such pole.
2. In the event of CATV's approval of such replacement, the company shall replace the pole and the CATV operator shall pay to the Company in advance the charges computed as follows:

The total cost of the new pole, the removal of the old pole, the transferring of the company's attachments from the old to the new pole and such other costs, if any, necessitated by CATV requirements, less the total of the following: accrued depreciation on the old pole, salvage, if any, and the cost of such portion of the new pole, which represents space reserved for the use of the Company greater than that provided for them on the old pole and appropriate contribution by any other company attached thereto.

**17.10 Limitations**

1. No use, however extended, of the Company's poles under this tariff shall create or vest in the CATV company any ownership or property right in said poles. Nothing herein contained shall be construed to compel the Company to maintain any of its facilities for a period longer than that demanded by its other service requirements.
2. The Company reserves to itself, its successors and assigns the right to maintain its poles and to locate and operate its facilities in such manner as will best enable it to fulfill its other public service requirements. The Company shall not be liable to the CATV company for any interruption to the service of the CATV company or for any interference with the operation of the equipment of the CATV company, if such interruptions are beyond the control of the Company.
3. The Company reserves the right to provide pole attachment to more than one CATV company and to make such space available to other entities. This tariff shall not limit the rights and privileges previously granted to others to use any poles covered by this tariff, and the privileges provided by this tariff shall at all times be subject to such previously granted rights.
4. Failure to enforce or insist upon compliance with any of the terms or conditions of this tariff shall not constitute a general waiver or relinquishment of any such terms or conditions, but the same shall be and remain at all times in effect.
5. In order to assure confident coverage of the indemnity and insurance requirements, the CATV company shall not assign, transfer or sublet any rights to make pole attachments hereunder without notification to the Company.

**17. CATV POLE ATTACHMENTS (Cont'd)**

**17.12 Surety**

The CATV company shall furnish a bond for each individual CATV system utilizing pole attachments under this tariff to guarantee the payment of any sum which may become due to the Company for rental, penalty, and make-ready charges and work performed by the Company, pursuant to this tariff, for the benefit of the CATV company or as a result of default or forfeiture by the CATV company. The amount of such bond shall be based upon the following:

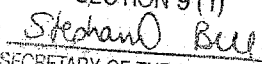

- (1) For attachments to 500 poles or less, a bond of \$5,000 shall be furnished, except as provided in (3) below.
- (2) For attachments to poles in excess of 500, further surety in the amount of \$5,000 for each additional 500 poles, or any increment thereof, shall be furnished except as provided in (3) below.
- (3) After one year following the completion of construction of an individual CATV system and its placement into operation, the CATV operator may request that the required amount of bond be reduced. Upon the Company's receipt of satisfactory evidence that all mechanics, workmen, and material men who furnished services, labor or materials in the construction of such CATV system, and all taxing authorities, have been paid all amount due them, the Company will reduce the amount of bond required to the following:
  - (a) For attachments to 500 poles or less, a bond of \$2,000 shall be furnished.
  - (b) For attachments to poles in excess of 500, further surety in the amount of \$2,000 for each 500 poles, or any increment thereof, shall be furnished.

PUBLIC SERVICE COMMISSION  
OF KENTUCKY  
EFFECTIVE

Issue Date: March 22, 2001

Issued By:   
Daryl Wyatt, General Manager

APR 22 2001  
Effective Date: April 22, 2001

PURSUANT TO 807 KAR 5.011,  
SECTION 9(1)  
BY:   
SECRETARY OF THE COMMISSION

17. CATV POLE ATTACHMENTS (Cont'd)

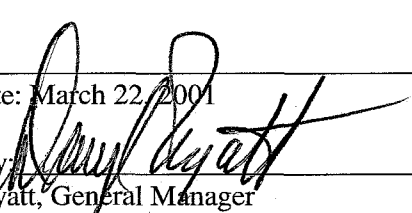

17.13 Payment of Bills

All amounts payable by the CATV company to the Company under the provision of this tariff shall, unless otherwise specified, be payable within thirty (30) days after presentation of bills. Non-payment of any such amount when due shall constitute grounds for termination of the pole attachment usage rights under this tariff.

17.14 Termination of Attachments

1. If the CATV company shall fail to comply with any of the provisions of this tariff, including compliance with the specifications previously referred to, the maintenance of required insurance coverage and surety bond requirements, and the timely payment of any amounts due, and shall fail for thirty (30) days after written notice from the Company to correct such non-compliance, the Company, at its option, may terminate the CATV company's right to continue any or all use of poles provided under this tariff and may act to remove the CATV equipment at the CATV company's sole risk and expense. The Company shall be responsible for its own negligence in the event such action becomes necessary.
2. Upon valid objection being made by or on behalf of any governmental authority properly asserting jurisdiction, the Company may without notice, or, where circumstances permit, upon five (5) days written notice to the CATV company, terminate the provision of pole attachment space as provided in this tariff.
3. The CATV company may at any time remove its equipment attached to any pole or poles of the Company and shall immediately give the Company written notice of such removal.

PUBLIC SERVICE COMMISSION  
OF KENTUCKY  
EFFECTIVE

PURSUANT TO 807 KAR 5.011,  
SECTION 9 (1)  
BY:   
SECRETARY OF THE COMMISSION

**17. CATV POLE ATTACHMENTS (Cont'd)**

**17.15 Notices**

Any notice required or authorized by this tariff to be given by the Company or the CATV company to the other party shall be deemed to have been fully given when made in writing and deposited in the United States mail, postage prepaid, and addressed to such other party's principal business address last furnished by such party.

**17.16 Rental Charges**

1. The CATV company shall pay to the Company, annually in advance, the rental charges specified below. Annual billing shall be made in July of each year.
2. From the effective date of the permit for previously unbilled attachments which shall be the date when the Company's facilities are made available for use by the CATV company, to the date of the next annual billing, the annual rental rate shall be payable on a prorated basis with such fractional amount submitted with the application for attachment.

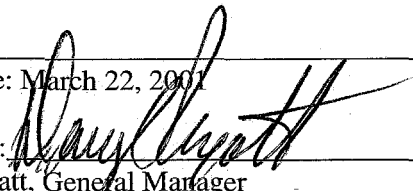

**17.17 Rental Rate**

	<u>Annual Rate</u>
Per 2-User Pole	\$1.98
Per 3-User Pole	\$1.22
Per linear foot of cable duct	\$2.43

**17.18 Penalty Charges**

Where pole attachments have been made without receipt of authorization from the Company, a penalty charge of twice the amount of the annual rate, from the date of the last previous physical inventory of pole attachments or inspection required pursuant to the rules of the Kentucky Public Service Commission, whichever is most recent. Additionally, a special "make-ready" charge, equal to twice the amounts that would have been due and applicable if the attachment or usage had been properly authorized, shall apply.

**Key items to look for on your bill:**

**Surcharges/Taxes**

**TRS/TDD SURCHARGE**-Fee assessed by Kentucky Public Service Commission (PSC) to assist those with hearing and speech disabilities in communication over the telephone network in Kentucky.

**Kentucky Lifeline Support**-Fee assessed by Ky PSC to assist low-income telephone customers in Kentucky.

**Federal Subscriber Line Charge**-Part of Federal Communications (FCC) program regulating how SCRTC recovers a portion of its cost of operating and maintaining the local telephone network.

**911 Charge**-Fee assessed by county/city governments to pay for a portion of the cost for local 911 emergency service in your area at the rate noted on the bill.

**Federal Excise Tax 3%**-Federally mandated tax on both local and all long distance charges.

**State Tax 6%**-Tax assessed by the state of KY on both local and all long distance charges. (\*eff 1-1-2001)

**School Tax**-Tax assessed by local schools in your area at the rate noted on the bill.

**Long Distance Calls**

**Rate**-Time of day period for calls used to set the cost.  
Local and Domestic: DAY (Day) EVE (Evening) NIT (Night) WEND (Weekend)  
International (Overseas): STD (Standard) ECOM (Economy) DISC (Discount)

**Class**-Type of toll call placed, also used to set the cost.  
STATION denotes a station-to-station customer dialed call  
-Domestic or International  
PERSON denotes a person-to-person customer dialed call  
-Domestic or International  
OPER HMD denotes an operator handled call placed person, collect, third number or calling card  
OPH-DDD denotes an operator handled and dialed station-to-station call  
CARD denotes a customer dialed and handled calling card type call  
PERS CB denotes a person-to-person call back type call

**Other Long Distance Carrier Surcharges**-Some long distance carriers may be adding other charges like Carrier Line Charge, Universal Connectivity Charge, Universal Service or other designations. Please call the long distance company's toll free number for further information about these charges directly.

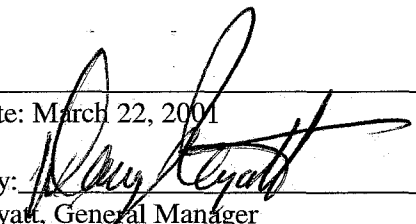

\* Denotes new or changed service

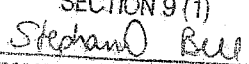

\*\* Denotes charges from new long distance carrier's bill
